

THE HOSPITAL TO
REMAIN OPEN

This was the decision arrived at at the public meeting held in the Town Hall on Tuesday evening after those present had listened to the canvassing committee's report that they had been successful to the extent of raising \$1412.00 for the purpose of carrying on.

The resolution was unanimous to keep the Hospital open until the vote is taken upon the question of the formation of a Municipal Hospital District.

The meeting was called to order by Mayor Fawcett, who stated that as a result of the wires sent to Edmonton by Mr. McNay the Hospital Branch of the Department of Health had sent a representative down in the person of Mr. A. C. Mackay to endeavor to complete the organization of the district, and he called upon Mr. Mackay to address the meeting.

Mr. Mackay traced the growth of the Provincial Hospital's Act, saying that the Act originated among the farmers, and was largely the outcome of a resolution introduced by Mr. Hubert Greenfield, and passed in a U. F. A. convention. After outlining the benefits of the hospitals, and giving some illustrations of the suffering endured, especially among those in remote districts, because of the lack of hospital accommodation, Mr. Mackay went on to say that we try to maintain our institutions by an absolutely absurd method. We have to depend upon people getting sick to make our hospitals pay, and if enough people don't get sick the hospitals go behind. The hospital ought to be kept up, not by the sick people, but by those who are well. There is only one hospital in the province that is paying its way, and that is because it is supported locally, not only by the town in which it is situated, but by the surrounding rural population. Macleod has a splendid hospital building, but it needs more equipment; it ought to have an X-Ray outfit, a sterilizing apparatus, and one or two other things, and in order to maintain the institution in the way it ought to be it must be supported by a larger territory, and it is proposed that the Macleod Municipal Hospital District shall include all the territory as far north as the next row of townships north of Claresholm, and will take in about 28 or 30 townships. The greatest difficulty to be overcome, as he saw it, is the jealousy existing between small towns, and he proposed to convince all the people who might be interested in the proposed district that this hospital was not to be the Macleod Hospital, but it was to be their (the people's) own institution, to serve their needs. Mr. Mackay then went on to explain that under the present Act the Municipal Hospitals Board could, if they so desired, besides maintaining the larger building for major purposes, establish district nurses in other town in the district, and rent lesser buildings for accommodation of maternity cases, etc., and so carry the benefits of the hospital to other centres. Mr. Mackay also said that it was his intention with the co-operation of those who might be in a position to assist him, to address meetings all over the proposed area, and place before the people the benefits to be derived from a Municipal Hospital District.

The report of the canvassing committee was given by Rev. W. A. Lewis, who said that by reason of the windy weather the committee had not been able to get out into the country but their canvas of the town had resulted in the raising of \$1412.00 (ap-
proximately).

Mr. Lewis stated that the Hospital Ladies' Aid had promised their continued assistance, and were proposing to hold a tag-day on June 11 (circus day), and upon the Macleod Fair Days.

After some discussion the meeting, by a unanimous vote, passed a resolution asking that the Board keep the Hospital open.

A. D. Ferguson and Dr. Kennedy paid a tribute to the untiring energies of President Leather and Secretary McNay, of the Hospital Board, and Mr. Leather in reply expressed his appreciation of the work of the canvassing committee.

Funeral of
The Late
D. J. Campbell

The funeral of the late Duncan John D'Urban Campbell took place on Thursday afternoon, May 20th. Out of respect for the deceased and as tribute to his memory all the stores in the town closed for one hour, and almost the whole town gathered to the Anglican Church where the service was conducted by the rector Rev. W. J. Merrick, M. A. Assembled at the house were a number of the friends of the deceased gentleman, including several from out of town including several from out of town, among whom were Messrs. J. D. Higginbottom, W. S. Gray, C. Bowman, H. Bentley, H. McBeth, H. Hillswood and Norman Macleod from Lethbridge, I. A. Heron, H. Hyde and W. R. Lees from Pincher Creek. There was also a representation from the R.C.M.P. consisting of Superintendent Pennefather, and Insp. Shobottom from Lethbridge, and Major R. Y. Douglas and Insp. Lindsay, of Macleod.

The Boy Scouts, of which the deceased was a commissioner furnished a patrol under the leadership of Scout Master Wilson Young. The pall bearers were all old timers and were Judge E. P. McNeil, H. Stedman, E. H. Maunsell, Curran Grier, D. L. Morrison and R. Patterson. After the casket had been placed in the hearse the cortege proceeded at a slow walk to the church, where the Boy Scouts formed a guard of honor. At the church door the casket was met by the Rector, who preceded it as it was carried up to the steps of the church and placed upon a bier. There were many beautiful wreaths, sent from Mr. and Mrs. D. G. McKenzie, Curran Grier, R. F. Barnes, W. A. Day, The Lethbridge Masons, Macleod Masons, the Staff of Bank of Montreal and the teachers and pupils of Macleod Public school. After the service for the dead had been read the body was followed by the mourners to the C.P.R. station, from whence it was sent east for interment at Montreal.

whole nation gone mad. The tremendous emotional surge of the story steadily gains in momentum and culminates in a startling climax.

Then the first appearance of Lou Tellegan in the same cast as his noted wife (portraying the role of the picturesque Egyptian chieftan) has been enthusiastically acclaimed by motion picture audiences throughout the country.

THE EDITOR AND HIS
MISTAKES

When a plumber makes a mistake he charges twice for it.

When a lawyer makes a mistake it's just what he wanted, because he has a chance to try the case all over again.

When a carpenter makes a mistake, it's just what he expected, because chances are ten to one he never learned his trade.

When a doctor makes a mistake he buries it.

When a judge makes a mistake, it becomes law of the land.

When a preacher makes a mistake nobody knows the difference.

When an electrician makes a mistake, he blames it on induction; nobody knows what that is.

When an editor makes a mistake—Good Night!

Public and
High School
Examinations

The Departmental Examinations for Grades VIII, IX, X, XI and XII will be held this year on June 21st, 22nd, 23rd, 24th, 25th, 28th, 29th and 30th, at the following centres contiguous to Macleod:

Barons, Blairmore, Cardston, Carmangay, Claresholm, Coaldale, Coalhurst, Glenwoodville, Granum, Lethbridge, Macleod, Nanton, Nobleford, Pincher Creek.

The department will supply the required foolscap, drawing paper, blotting paper squared paper, but candidates shall provide themselves with rulers, compasses, pens, etc., also ink in districts where it is not supplied by the school board. Candidates writing on the examinations in drawing must provide themselves with a soft eraser, a good drawing pencil, ruler, India ink, water colors and suitable brush or brushes. For the work in water color, a supply of water and conveniences for cleansing the brushes should be available.

Candidates who have not selected one of the above centres, should advise the Board at once at which centre they desire to write.

The examinations for the First and Second Year Commercial Course will be conducted at Calgary, Edmonton, Lethbridge and Medicine Hat, during the same period as the grade examinations.

"The Flame of
The Desert"

A spectacular production of beautiful ensembles and massive effects, this picture stars Geraldine Farrar supported by Lou Tellegan and a fine cast. The story deals with the romance of an adventurous English girl in Cairo at the time of an insurrection of native Egyptians against the British immediately after the European war. The production is made especially interesting through magnificent settings, superb photographic effects and character contrast. Miss Farrar is an engaging heroine, graceful as ever and her support could hardly be surpassed, responding to her acting with rare intelligence, but the notable feature of this elaborate and costly production is an artistry of treatment for which the director and camera expert are to be congratulated. The high quality of the treatment held a crowded house at the Strand Theatre, New York absorbed in the outcome.

The above is a criticism by Harrison the only strictly independent film critic in America.

This picture will be seen at the Empress Theatre Monday and Tuesday, May 31st and June 1st and is one of the big productions of the year.

Out of one hundred and eighty-five secretaries of the Foreign Work Department of the International Young Men's Christian Association twenty-one came from Canada. Of these seven are in India, two in Ceylon, six in China, one in Korea, two in Japan, one in Egypt, one in Porto Rico and one home on furlough.

If you enjoy the really "Big" pictures you should not fail to see "The Flame of the Desert" featuring Geraldine Farrar and Lou Tellegan, showing at the Empress next Monday and Tuesday.

SAWMILL DEFINITELY
COMING TO MACLEOD

Mayor Fawcett has received information from a most reliable source that Col. Perchen has decided to locate the saw mill on the old McLaren property on the flat just west of town. Certain concessions are asked from the town all of which are very reasonable, and which the mayor believes will receive the unqualified endorsement of the council and of the public generally.

It is the intention to proceed at the earliest opportunity with construction of the dam and different parts of the plant, and already preparations are being made for the carrying on of this work.

The C. P. R. are at present engaged in running a survey for a spur track to the mill. Sometime ago Mr. Miles, the chief engineer for the C. P. R. was over the ground with reference to a spur down to the power house to enable the town to handle their coal supply more economically, and it is now the plan of the engineer to make arrangements so that this spur will serve the power house and the mill.

The question of the title to the public utilities lands is again involved in this adjustment, but the mayor assures us that he has every hope of receiving within the next few days the information that the title is adjusted in the name of the town.

Monument
to Soldiers

Mrs. Edgar of Macleod has received the following clippings from her sister Mrs. Young, of Tweedmouth, England. Mrs. Edgar is the mother of Sgt. D. W. Edgar, Machine Gun Section, 31st Batt., C.E.F., who was killed in action on June 6th, 1916.

"Better late than never," is a maxim applicable one would think to almost any case and we hope it will apply in a satisfactory way to the following. Mrs. Young, Main Street, Tweedmouth, has just received from her sister, Mrs. Edgar, Macleod, Canada, a gift for the Tweedmouth War Memorial Free Gift Sale, which, unfortunately for this gift was held in Feb. last. The articles comprising the gift are typical of the region from where they have come, one being a handkerchief case and the other a tie rack. They are both made from very fine leather, artistically finished, and on each is the head of an Indian, one hand painted the other burned on. Both in their primitive head dress of feathers, etc. Mrs. Edgar had a son killed in the war, and having been born in Tweedmouth it is her wish to have his name on the Memorial, and the gift just arrived is her donation to the fund. The articles are in the custody of the Secretary, and anyone wishing to see them with a view to purchasing can see them any time at his house.

The Prohibition
Referendum
In Macleod

H. H. Hull, of the Alberta Social Service League, with headquarters in Edmonton paid a visit to Macleod on Saturday and Sunday to organize the district in view of the Prohibition Referendum shortly to be submitted to the voters of this province.

Mr. Hull addressed four meetings on Sunday, one in the morning in the Methodist church, another in the afternoon at Pearce, in the Presbyterian church in the evening at the regular service hours and then at the close of the service a mass meeting for the general public was called. In his address Mr. Hull told of what had been accomplished by the closing of the bars, quoting statistics relating to the number of convictions for drunkenness both before and after the passing of the Alberta Liquor Act, showing that in spite of statements that had been made to the contrary, crime of all kinds had been wonderfully reduced during this past five years. The prison farm at Edmonton had been discontinued, and is now rented. The Dominion penitentiary in Edmonton is closed, and the prison population of the province considerably reduced. Mr. Hull also answered some of the objections that had been raised and urged the people of Macleod to carry the cause of prohibition a step further and prohibit the importation of liquor into the province, the shipments that are now coming in from outside. Committees were formed in Macleod and at Pearce to carry on the campaign, and to act as agents when the voting takes place. The date set for has not yet been set by the government, but it is expected that there will be an announcement from Ottawa in the course of a few days.

Mr. Hull stated that the question would be a straight question and up on the one subject and that would be as to whether the people of Alberta want the importation of intoxicating liquor into the province or not.

Tag Day For
The Hospital

At a meeting of the Hospital Ladies' Aid held in the Methodist Church Hall on Tuesday afternoon it was decided to hold a tag day for the benefit of the Hospital on June 11th, when Barnes' Circus is to be in town, and also on the Macleod Agricultural Fair Days. It was also decided to put on a play in the near future.

In 1919 the Canadian Y.M.C.A.'s raised \$62,850 for the foreign work out of a total of \$1,129,322 raised in Canada and the United States, or approximately five per cent. The total budget for the two countries this year is \$1,468,780, of which Canada is undertaking to raise \$100,000.

Three dandy features at the Empress next week. Geraldine Farrar, in "Flame of the Desert"; Tom Moore in "A Man and His Money" and Dorothy Gish in "Nugget Nell."

G. W. V. A.
Dance a Pleasant
Function

The G. W. V. A. gave a dance in their rooms on Monday, May 24th. There was a large attendance, not only of the town people, but from the surrounding country, and a large party came over from Granum.

The affair was highly successful and afforded a pleasant evening for the many who were present.

The G. W. V. A. announce their intention of giving a series of Saturday evening dances through the summer, commencing at the hour of 9.30 p.m., for which there will be a nominal fee of 50c for gentlemen and 25c for ladies.

Every Citizen
Should Read

The government of the Province of Alberta has issued a booklet, prepared by J. D. Hunt, K.C., clerk of the executive council of the province, in which is given a synopsis of the most important acts passed during the recent session of the legislature.

This little booklet of 35 pages sets forth in readable form all the important changes and amendments in our present laws, and this action of the legislature is to be highly commended as it is now possible for the average citizen to know something about the laws by which he governed without being compelled to master the details as set forth in ponderous law books.

This little book should be in the hands of every person who is interested in the laws of the province as the subjects covered are of vital interest to all. Among the laws discussed and outlined are those relating to irrigation, water users, land titles, school assessments, grants and attendance, mothers allowance, the equal rights of parents over infants, etc., etc.

Remember Tom Moore as "Lord Algy"? Well don't fail to see him in "A Man and His Money" next Wednesday and Thursday.

Macleod District
Methodists Meet

On Tuesday last was held the Annual District Meeting of the Methodist Church of Macleod District, at Macleod. There were present delegates from Claresholm, Blairmore, Bellvue and South Macleod, and the whole work of the district was passed under review, and recommendations were made to be considered at the meeting of the Annual Conference to be held the first week in June in the city of Edmonton.

Considering the hard year through which the district has passed the finances made a good showing, the amount raised for all purposes being only about \$1,000.00 less than last year.

It was decided to ask the Conference to appoint an ordained minister to Hillcrest, and also to Fishburn.

The visiting delegates were: Rev. A. W. Locke, Claresholm; Rev. W. T. Young, Blairmore; Rev. H. Peters, Bellvue; and Rev. Thos. Powell, Superintendent of Missions, Calgary.

Biggest Farrar
Production

Anything we write can hardly do full justice to "Flame of the Desert." We will however tell you without reservation or fear of contradiction that it outranks by far any production with which Geraldine Farrar has been associated, and that it takes its place with the most brilliant art. Adjectives after all are but words. See the Picture at the Empress Theatre next Monday and Tuesday and you will see something worth while.

You will agree with us when we say but one word adequately describes "Flame of the Desert"—and that word is BIG. Big in the dramatic power of the story and big in the immensity of its settings; "Flame of the Desert" will carry you from the civilized luxuries of London to the barbaric splendours of inscrutable Egypt, where against the cities and moonlit desert nights the heroine is precipitated into a struggle against the blind frenzy of a

INTERNATIONAL
HIGHWAY THROUGH
MACLEOD ASSURED

As the result of very strenuous efforts on the part of Mayor Fawcett and J. W. McDonald, President of the Board of Trade it is practically assured that the great trunk motor road extending from Grand Canyon, Colorado to Calgary and Banff will adhere to the route originally decided upon and marked out last fall.

The South Alberta Good Roads Association, so called, has not been able to induce the Premier, and the Minister of Public Works, to abandon the original, direct and commonsense route, which passes through the town of Macleod, although strenuous efforts were made in Lethbridge to do so.

The importance of this road to the

town of Macleod will at once become apparent when one realizes that this town is the first stop over night after leaving Glacier Park.

Although this motor traffic is yet in its infancy, last year the sum expended along the route was something like \$4,000 a day, so that with the continual increase of traffic, the town of Macleod will be drawing an increasing revenue. In addition to this the great tide of immigration from the United States passes near this route and it will mean much to the districts through which the road passes, both as an aid to the rapid settlement of the country and as a means of easy communication between town and town.

AUCTION SALE OF FARM LANDS

Pursuant to the order of the court there will be offered for sale in front of the Court House in the Town of Macleod on Saturday, the 5th day of June, 1920, at the hour of 12 o'clock, noon.

The north-west quarter of Section Twelve (12) and the South-East Quarter of Section Thirteen (13), both in Township Nine (9), Range Twenty-eight (28), West of the Fourth Meridian, Alberta, containing three hundred and twenty (320) acres more or less but subject to the conditions and reservations expressed in the original grant from the Crown and in the existing certificate of Title.

The property is situate 2 miles from a school and 16 miles from the Post Office and 16 miles from the Canadian Pacific Railway Company's station in the Town of Macleod.

There are about 100 acres of the land which have been cultivated and the remainder is unbroken. There is a frame house 18 feet x 20 feet with an addition 12 feet x 20 feet, partly plastered and with shingled roof, also a granary, stables and sheds on the property. The land is fenced with a three-strand barbed wire fence in a good state of repair, and there is a good spring on the property.

The sale is subject to a Reserve Bid which has been fixed by a judge.

Terms of Sale:—10 per cent of the purchase money to be paid at the time of the sale and the balance to be paid into Court within 60 days without interest.

For further particulars apply to McDonald, Martin & Mackenzie, Solicitors, Macleod, Alberta.

Approved: J. D. Hyndman, J.S.C. 10-3t

Dilatash & White say "It's an ill wind that don't blow someone some good" on the day of the big wind last week the following people laid off a day and purchased cultivators from the above firm: W. J. Strain, Wm. Taylor, W. E. Davies. The firm also claims record business in auto accessories and tires—the old prices in vogue on tires, etc. making purchasing from them very attractive. See Dilatash & White, for Overland and Dodge repairs. P. Chugg claims doing farm work with a Wallis tractor costs much less than half of work when done by horses.

Trees on the Prairies

It was in 1901 that the Forestry Branch of the Department of the Interior began to send out trees to the farmers in the prairie provinces to plant shelter-belts about their buildings and fields. Since that time over fifty million seedlings and cuttings have been sent out from the Dominion Forest Nursery Station at Indian Head, and the branch nursery. The success of this plan of free distribution of trees is shown not only in the increasing use made of it by farmers of the prairie provinces, but also by the fact that this system of tree distribution has been copied either as it stands or in a modified form by other important administrative bodies. The provinces of Ontario and Quebec, although their conditions are very different from those of the prairie provinces, have applied the plan in a modified form to farmer's woodlots. The United States Department of Agriculture, after a careful study of the system in Canada, applied it to the prairie states. At present several thousand farmers in the Canadian West are receiving trees annually, and this number will doubtless now be increased seeing that the war is over, and the farmers have more time.

BIG SPECIAL FEATURE AT THE EMPRESS NEXT MON. & TUES.

Mrs. Nellie McClung and the Budget

Mrs. Nellie McClung the noted authoress, of Edmonton, was asked by the Albertan to give her opinion of the new taxes proposed in the budget, and has wired the following:

"The money has to be raised, of course, and, personally, I can do without silk stockings and georgette blouses, but I did hope that some of the war debt could be dug out of the war profiteers and the people who boldly proclaimed that they were not running their business for the glory of God." The new taxes will not be any hardship for those. They will simply add to the price of their products, and let the people pay as usual. But it will bear heavily on the salaried and professional people, who are now burdened to the limit. To them it will mean a further lowering of the standard of living, and they will become more than ever the poor. I would have liked to see the government make drastic reduction in the tariff, and cease to protect wealthy manufacturers, sugar people and others, and show a real strength in throttling the big interests. The present budget does not aim to do this. I am disappointed. I thought a government that felt strong enough to conscript life would be strong enough to do anything."

Canada's New Budget

Details of the government's tariff and other tax proposals will be eagerly awaited. We have been told in a general way what is proposed. There are to be heavy taxes on luxuries of various sorts, and we are to have a tax on clothing and footwear where these exceed certain retail value.

The business profits tax is to be continued with modifications, and there are to be increases in income taxation where the income exceeds a stated sum. It is all very interesting, and we shall be curious to see how it will work out.

In the clothing and footwear tax the government sets a maximum price which may be paid free of taxation. Over that a government charge of ten per cent is provided for. Naturally the people will try to get out of paying the government tax, but will they be able to get the sort of clothing or footwear they want and need at the price fixed by government as the maximum? In other words, will the manufacturers, say, off footwear, give us a serviceable and comfortable shoe at a price within the government limit, or will they declare that it cannot be done and force us to pay not only the higher price, but the tax as well? This is one of the things we have yet to discover.

In the dispatches received from Ottawa yesterday, there is little indication or change in the customs tariff. Certain war duties have been removed, but it is evident that the government does not intend to interfere at this time with the tariff as a whole. The only assurance we get from Sir Henry Drayton's announcement is that there will be a scientific tariff inquiry immediately after the prorogation of parliament, to be followed by a scientific revision of tariff in the next session of parliament. Sir Thomas White promised us the same thing during his term of office, but it did not arrive. We may take it for granted that the Unionist and cross-bench representation from Western Canada will draw from the government something very definite on this subject during the budget debate.—Calgary Herald.

Eskimo Collection in University of Alberta

Our most northerly neighbor, the Eskimo, is, according to the reports of various explorers, gradually dying out, and at the same time is rapidly adopting the implements, utensils and the customs of the white man. In spite of this fact, little or no attempt is being made to obtain and preserve records of early customs, in the shape of articles of dress, hunting, fishing, warfare, means of transportation, or objects which would indicate their religious customs. All of these would be interesting, and as the years roll by, will become of greater educational value. A great man may be memorialized by his writings, his sculpture, or other lasting work, but the life and customs of the Eskimo will be memorialized only by these articles made and used by his race.

Now is the time to construct this memorial. Now is the time to obtain those blocks out of which a future memorial may be constructed. It is not for us to wait until he has passed out, or to wait until he has adopted ways of fishing, hunting, living, and even worshipping from the white man.

It is true the National Museum at Ottawa has obtained much through the recent Arctic exploration expedition, and from earlier explorers, with which to build a lasting national museum of the Eskimo.

Alberta includes the National highway to the Arctic, and Edmonton is the nearest city to the happy fishing ground of the Eskimo. It is therefore fair to assume that within Alberta would be preserved many relics which would be of historical value, relics from the Eskimo. There may be many private collections of Eskimo curios, but these can be seen and studied by a few casual fortunate individuals. A great benefit can be obtained from such a collection as this, stored in a public institution, which the public has the privilege to visit at any time.

The University of Alberta has started such a memorial, and it is hoped that other material will be added to this collection shortly. This exhibit, which is now in the Geological Museum in charge of Professor Allan, is so arranged that it can be seen at almost any time by the public. This Eskimo exhibit, though still small, consists of many representative articles from both the Coronation Gulf Eskimaux and from those of Herschel Island. The former collection, which is the larger, was donated by Mr. J. Hornby, who has spent some years among the Eskimaux, and is now in Arctic lands. The latter was presented by Dr. Wilson, who has spent some time among the Herschel Island Eskimaux.

This exhibit consists of various fishing and hunting implements made from bone, hide, drift wood, and from native copper, which is found in extensive deposits on the Coppermine River. Snow knives of native copper, bows, and copper-pointed arrows, horn dishes, skinning knives, aguk of bearded seal, furs, garments, and many other utensils are also included.

The Herschel Island Eskimaux appear to differ markedly from the Coronation Gulf Eskimaux in that they have made use of nails and

pieces of wire in manufacturing their can be more readily obtained from white men at this point. It is to be hoped that increased interest will be taken in the Eskimo, and that an attempt will be made to produce much material of value from this fast decreasing race.

Crop and Live Stock Report

The conditions at the beginning of May were seen to be rather unfavorable looking at the calendar, but highly favorable with respect to the thing which has proved a great limiting factor in crop production the last two or three years. During the fall, winter and spring liberal moisture has come to every part of the province and it was the case likewise in the south where waste sometimes occurs from persistent wind that the moisture that had come both in snow and rain was effective. Southern Alberta was well into seeding by the first of May—rather later than last year. Central Alberta had made general beginnings while the north country had started only in favoured localities.

Progress in Seeding Operations

Since that time operations have been very active throughout the province with some delay from rain. A rather sharp rain occurred on May 11th which was pretty general and necessarily set back seeding operations. Progress in the south has been such that over sixty per cent of the wheat seeding is complete and about thirty per cent of the oats are sown. Seeding will be completed in ten days in Southern Alberta except for feed. In Central Alberta the progress has not been as rapid as in the south. At most points along the north and south lines only about twenty per cent of the seeding has been completed. Some delay has been caused by rains and as there was little plowing last fall it is going to take longer to put the crop in this spring. A good many are stubbling in their grain. Wheat seeding will be completed in Central Alberta in four or five days.

Live Stock Conditions Improving

All the rough stock of the country is now out rustling on last year's crop ground and native pastures. The supply of hay from outside, which has been brought in by the provincial government is adequate to satisfy the demands of work stock. Estimates with regard to losses are difficult to make. In a general way it appears that the very active and economical liquidation of stock which was carried on from June until December last year is going to reach into big figures. About four hundred thousand stockers went out of the province, chiefly from Southern Alberta, a great many others were absorbed by Northern farmers and the packing plants put away likewise a great many young animals that otherwise would have been carried over until next year. The count of stock in the south has been so materially reduced that a percentage on the number left must necessarily be an extremely small percentage in relation to the whole cattle stock of the country.

A favorable feature of the management of live stock last fall is that the productive stock has been saved to the country. Most of the stuff that went out was the stocker stuff and the cows have been held back. Dairy wealth last year in spite of the drought showed its usual fifteen per cent increase over previous years and prospects are favorable for a quick restoration of the cattle count. It is to be noted that in addition to the losses of the south there were some incurred in the central part through miscalculation of the amount of feed required to carry cattle through.

Sheep have come through well on the range but increase is going to be light owing to poor conditions at breeding season last year. Only seventy-five or eighty per cent of ewes will produce and lamb losses have to be counted on top of this.

J. McCaig.

Ottawa, May 18th, 1920
His Honor,

The Lieutenant Governor of Alberta,
Edmonton, Alberta.

It is the wish of His Majesty that Representative, and the inhabitants, June 3rd., in the Overseas Dominions, Colonies and Protectorates. The nature of the celebrations to be left to the decisions of his Majesty's Representative, and the inhabitants.

His Majesty does not want any unnecessary expense incurred. The celebration of his Majesty's birthday in the United Kingdom will be observed on the 5th of June.

Thomas Mulvey,
Under-Sec. of State.

Schleswig Given Back to Denmark

Danish troops now occupy northern Schleswig, the people of which on February 10 last, in a plebiscite provided for in the peace treaty, voted by a large majority for a return of this part of the territory to Danish nationality.

The Germans had been in control there since 1866. Enthusiastic scenes accompanied the arrival of the Danes at Sonderburg. There the entire population, among them a number of aged persons who still remember the rain of German shells on the town and about 50 veterans of the war of 1864 were out to cheer them. A force of Danes also arrived in Hadersleben and were welcomed by a crowd estimated to aggregate 20,000. Danish and French troops marched through beflagged streets to the barracks where, amid great rejoicing, the German colors were hauled down and the Danish flag was hoisted. At Lunden, British troops were drawn up to receive the Danes.

Admiral Sheppard, commander of the allied occupation forces, will officially transfer the military authority to the Danish commander at Sonderburg.

In the war of 1864 Prussia and Austria wrested the Duchies of Schleswig and Holstein from Denmark. Two years later Prussia's victory over Austria resulted in the incorporation of the duchies in the dominions of Prussia with the provision that the people ultimately decide their nationality by plebiscite. This agreement was never kept by Prussia and was repudiated by her empire in 1871.—Calgary Herald.

Latent Value of Straw Stacks

Burning straw-stacks are a familiar sight to the western traveller. At present there is seemingly no other method of disposing of this by-product of the grain harvest.

Investigations as to the possibility of using the straw as a raw material in manufacture were undertaken some years ago by different interests, but the same conclusion was reached in each case. The cost of transporting the straw to a central point was more than the traffic would bear, the cost of manufacturing precluded competition in the open market, and, consequently, the use of the western straw under the transportation handicap was not a commercial proposition. This was especially the case in the manufacture of strawboard. In 1913, strawboard prices range from \$25 to \$26 per ton. There was little demand for this product in the west, and, at the above price, it could not compete in the east. One leading eastern paper industry, which, some years ago, carefully considered the possibilities of establishing a strawboard mill in the west, recently stated that, under present conditions, with strawboard selling at \$85 to \$90 per ton, such a factory could be made a profitable industry.

The rising cost and the necessity for conserving our pulpwood supply suggest that any material capable of being used as a substitute should be developed. Strawboard is a short fibered material and is unsuitable where strength or folding qualities are required, but there are many uses for which it is entirely satisfactory. In 1918 Canada imported 4,850 tons of strawboard, equal to the output of a mill producing 15 tons per day.

Non-Canadians manufactured the strawboard we imported; we paid them for doing so, while we burned our own straw.

A Conference on Soil Problems

Soil fertility in Western Canada

Conference to Consider Agricultural Problems of Greatest Importance

To consider the best methods of preserving soil fibre and fertility—an agricultural problem of vital concern to Western Canada—will be the purpose of an important conference to be held at Fort Garry Hotel, Winnipeg, Winnipeg, on July 14, 15 and 16 next, in connection with the semi-annual meeting of the Commission of Conservation. Particular attention will be paid to the practical problems of the Western farmer and the following subjects will be included in the programme with a thorough discussion of related questions:—

(1) The rate and extent of ex-

DIAMONDS

Generations may come and go, but the blazing splendour of this royal gem lives on for ever.

We carry at all times a fine selection of Diamonds, set up in the latest and most elegant settings.

All our Diamonds are carefully chosen and are as nearly perfect as it is possible to obtain.

Prices from \$18.00 upwards.

R. W. RUSSELL

Jeweler, Diamond Merchant, Optician — Macleod, Alta.

haustion of soil fertility on western farms;

(2) Conservation of soil moisture and its relation to the physical condition of the soil and to crop production;

(3) Maintenance of organic matter or fibre in the soil with a discussion on the importance of soil fibre.

(4) Rotation suitable for drought areas of the Prairie Provinces;

(5) Soil and crop management;

(6) Other phases of agricultural problems of the west, such as the prevention of soil drifting, suppression of weeds and the uses of grasses and legumes for the purpose of supplying forage live stock and humus for the soil.

A thoroughly helpful programme is being arranged by the Commission which will be of particular interest to all leaders in agricultural betterment and to those who are engaged in crops will contribute papers or addresses.

The Minister of Agriculture in each of the provinces of Manitoba, Saskatchewan and Alberta has been invited to attend and the Deputy Ministers of these three provinces have consented to be present and will take part in the proceedings. Dr. Grisdale, Deputy Minister of Agriculture, Ottawa, will also be present to deliver an address.

The whole matter of the conservation of soil fertility and the prevention of soil drifting is timely and important. It is felt that a gathering of this kind, to present the best and most authoritative facts regarding these problems, will be productive of great good. Farmers and all others interested in agriculture are cordially invited to be present.

"What's going on?" we asked a citizen this week. "Nuthin," he replied. A newspaper man must draw on his imagination or use his shears on his exchanges in a community where there's "nuthin" doing.—Note please phone in your news or let us know when there is "sumthin" doing.

The New Schedule of Taxes

The following is a summary of the taxation proposals submitted to parliament by the minister of finance recently:

The luxuries—10 per cent. of the total purchase price on boots and shoes costing over \$9.00 a pair; men's and boys' suits costing over \$45.00; men's and women's over-

coats costing over \$50.00 each; fur coats and robes over \$100.00 each; women's dresses over \$45.00; women's suits over \$60.00, and on hats, hose neckwear, shirts, purses and gloves costing above certain specified figures, as well as on some other wearing apparel, all fans, opera glasses, cut glassware, velvet and silk fabrics, lace, ribbons, silk embroideries and sporting goods. Also on trunks over \$40.00 each and valises, suit cases, etc. over \$25.00 each. This tax to be paid by the purchaser at time of sale.

Ten per cent. on pleasure boats, yachts, canoes and motor boats, cameras, candy and confectionery, chewing gum, firearms, shells or cartridges, pianos, organs, musical instruments and plated ware adapted for household use. This tax payable at the time of sale by Canadian manufacturers or when imported.

Purchaser Pays Tax

Twenty per cent. of total purchase price on such articles as cigar and cigarette holders and pipes costing over \$2.50; humidors and other equipment for smokers; hunting, shooting and riding garments, fancy pocket knives, gold, silver, ebony, and ivory toilet ware, jewelry, articles of silver adapted for household or office use, fur wearing apparel (except as mentioned above), liveries, oriental rugs, expensive carpets and curtains, and chandeliers. This tax payable by the purchaser at the time of purchase.

Twenty per cent. on articles of gold for household use.

Latter two taxes to be paid at time of sale by manufacturer or when imported.

Playing cards, 25 cents a pack on cards selling at wholesale rates not over \$25.00 per gross packs, and 50 cents on cards above \$24.00 per gross.

Beer, wines and spirits: Increase in excise duties on beer of 30 cents a

gallon, non-sparkling wines 30 cents a gallon, spirits \$2.00 a gallon, and on sparkling wines \$3.00 a gallon.

Motor cars—Excise tax on Canadian manufactured and imported cars increased from 10 to 15 per cent.

Sales Tax—Not Retailers'

Sales tax—One per cent on the sales of all manufacturers, wholesale dealers, jobbers or importers (not retailers). This tax to apply to a large list of essential foodstuffs, cattle foods, anthracite or bituminous coal, or to goods exported.

Stamp duties—Existing taxes on cheques continued but rate increase on bills of exchange and promissory notes. Two cents for bills of \$100.00 or less, and two cents for each additional \$100.00 or fractional part thereof.

Stamp duties on patent medicines, etc.—Henceforth to be affixed by manufacturer or importer instead of retailer as now.

Film tax of 15 cents for each day used abolished because of inequality of incidence as between small and large theatres.

Effective Wednesday, May 19

All the above taxes are effective from Wednesday, May 19.

Income tax—By last year's legislation, income taxes payable this year on 1919 income were very substantially raised. A further general addition to these taxes of five per cent. is now added on incomes of \$5,000 and up, to be effective this year.

In future, income tax returns must be accompanied by a cheque of at least 24 per cent. of the whole of the amount estimated to be payable. If paid in installments, interest at 6 per cent. is to be charged and payment in full is required within six months after return is made by means of three equal bi-monthly installments. Heavy penalties are provided for incorrect returns.

Business Profits Tax—Present tax is modified by increasing the exemption allowed from 7 to 10 per cent. and changing the schedule of taxation to the following:

On profits in excess of 10 per cent. on capital, but not exceeding 20 per cent., tax will be 30 per cent.

On profits in excess of 20 per cent. on capital, but not exceeding 30 per cent., tax will be 50 per cent.

On profits in excess of 30 per cent. on capital, tax will be 60 per cent.

For small businesses with capital of not less than \$25,000 and under \$50,000, 20 per cent. on all profits exceeding 10 per cent. will be taken instead of 25 per cent., as at present.

Under legislation of last session, the maximum scale of business tax is in effect this year and the modified tax will apply to 1920 profits, taxable in 1921.

Tariff changes—The 7½ war customs duty is taken off all remaining items. Last year the five per cent. British preferential war tax was entirely removed, as well as the 7½ on food, clothing, agricultural implements, etc. The war customs duties imposed in 1915 are now entirely removed.

Sir Henry also announced that public sittings for tariff revision would be held throughout Canada after prorogation.

Monarch, Alta. May 15-20

Editor
Macleod Times
Dear Sir:—This in reply to Mr.

Alex McDonald's invitation for records for seeding. He seeded 165 acres in two days with his Case Tractor but he didn't say if they were 10 hour days or 24 hour days but I don't see where he has done anything to wonder at if they were 24 hour days, as I seeded 208 acres in 4 days of eleven hours with a with a horse outfit, I treated my wheat and put it in all alone.

Mr. Macdonald didn't say what man-power he had with his engine so under the circumstances I don't see that he has anything over me, as you cannot compare an engine with horses. I have used both kinds of power.

H. Duhamel.

Application for oil and gas leases covering upwards of 200,000 acres in the Northern Albertawere filed during February.

CUT THE HIGH COST OF LIVING. ASK THE MAN BEHIND P. BURNS' MEAT MARKET COUNTER. HERE'S ONE WAY.

ENGLISH POT ROAST

REQUISITES:—1 No. 1 Pot Roast, purchased at any of our markets, 1 oz. Burns' Shamrock Lard or 1 oz. Burns' Refined Beef Dripping, 1 Carrot sliced, 1 Onion sliced.

RECIPE:—Use a regular braising pan, and when the lard or dripping is well heated place the pot roast in the pan and leave until thoroughly browned; add one sliced carrot and one sliced onion. The addition of peppers or bay leaf lends a very pleasing flavor. When thoroughly braised, stir in two tablespoonsful of flour and add 1½ pints boiling water, and let simmer for 1½ hours, when it is ready to serve.

N.B.—We are indebted for this receipt to Mr. L. Cunningham, Chef at the Empire Hotel, Calgary. Mr. Cunningham is unquestionably an authority on "Pot Roasts."

P. BURNS & COMPANY, LIMITED, MACLEOD

District & General

A concrete ocean steamer, the only one of the kind ever built in Canada, has been launched in Sydney, N. S. If she is able to keep afloat in spite of her name she will be a winner. She has been christened Pemanencia.

Forest fire patrols in the Rocky Mountains on the Pacific coast will be carried out this year by air-men. The Dominion Government are making arrangements for two stations one at Morley and one other at Vancouver.

Germany's reparation indemnity has been fixed by the Anglo-French committee at thirty billions of dollars (\$30,000,000,000) in gold, experts will determine Germany's best method of the raising and payment of this sum to the Allies.

The Imperial Oil Co. will spend \$2,000,000 for oil explorations in Alberta this year. One well will be drilled south of Pincher Creek and one each at Fort Norman and Great Slave Lake. A well is being put down in the Czar district and the Brazena region may be examined.

D. G. Mackenzie left last evening for Edinburgh, Scotland. On his way east he will stop off at points in Ohio, where he expects to play in several golf competitions. Mr. Mackenzie is quite capable with the sticks, and will sure show the Yanks how to play the game of golf.

Great Britain still adheres to the policy of voluntary enlistment as the best method of enlisting recruits for her army. This announcement was made by King George V. to a conference on the re-construction of the territorial army held recently in Buckingham Palace.

Under the League of Nations there are to be no more secret treaties. It will be possible for the general public agreements and scan them at their pleasure. This is something so different to what we have been accustomed in old world diplomacy that it is startling to say the least.

According to a report from Winnipeg there is a disappointingly small area being sown to coarse grains in Western Canada this season. This is to be regretted, if true. Wheat production is bound to be less than a year ago and if we are going to fall short in the production of the coarser grains our situation next fall will not be very promising. The Times questions if this is a correct

report so far as Alberta is concerned. The evidence is all to the contrary.

While guards went their rounds at the Montreal jail the other night to prevent escapes of prisoners, thieves broke into the jail yard and stole the jail's total stock of potatoes. There are several suggestions that might be appropriate in connection with this story. Make them yourself.

Invasion of Persia by the Bolshevik forces is regarded as serious by the British. If this is the way the thing stands it will not be long before the situation will be regarded as serious by the Bolsheviks. When Britain takes a situation seriously it usually happens that way for the other fellow.

Hon. W. S. Fielding has moved an amendment to the budget resolution in which he urges for moderate tariff. He is no free-trader, neither is he a high protectionist. It is said of him that he is trying to win the approval of the Farmer party in the house. At least he is consistent on his record. His attitude on the tariff was known long before the farmers came into parliament.

At the recent meeting of the Western Boards of Trade, it was urged that there should be a larger number of western men upon the directorate of the National Railways. Representatives from the Peace River Country at the Board of Trade's convention are urging that convention to petition the federal government to purchase the E. D. & B. C. railway.

"Judge, 'tain't my fault a-tall. Satan comes to me and dun urge and urge and urge, and he sez to me, 'G'wan, take dat brass, I tell yuh, take it 'Alabam.' So Alabam Jackson explained to the court judge. His Honor was sympathetic. "Too bad," commiserated His Honor, "too bad, indeed, Alabam, but we'll fix it. You go to jail for 30 days and then if Satan comes back he won't be able to get you. Next!"

It is prophesied that within ninety days the E.D. and B.C. Railway will have ceased to function because of the spring softening up, and some enthusiastic gentlemen would have the Dominion government take the line over. But even if it did, the road would cease to function just the same, for a time at any rate. And in the meantime it is just possible the Dominion government has just about all the railways on its hands that it can properly handle.

Expert Advice.

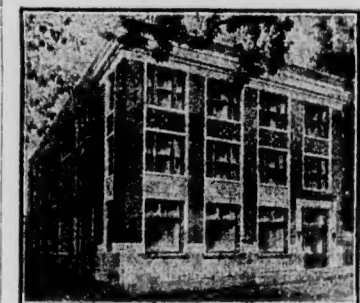

The curate prided himself on his oratorical powers. He was describing the downward path of the sinner and used the metaphor of a ship drifting and going to pieces on the rocks. A sailor in the audience was deeply interested.

"The waves dash over her!" belated the curate. "Her sails are split! Her yards are gone! Her masts are shivered! Her helm is useless! She is driving ashore! There seems no hope! Can nothing be done to save her?"

"Let go the anchor, ye lubber!" he shouted.

Council meets first and third Mondays every month in the Town Hall.

Committees
Finance — McNichol, Thewlis, Morris.
Police—Muldoon, McNichol and Gardiner.
Fire — Morris Gardiner and Thewlis.

Water and Light—Gardiner, Muldoon, McDonald.
Sanitation — Thewlis, McDonald, McNichol.

Health Board—J. L. Fawcett, V. Pearson, R. D. McNay, A. T. Leather and A. Young.
Superintendent-Engineer — V. Pearson.

Second Engineers—Frank Seymour and M. Hill.
Chief of Police—S. O. Lawson.
Fire Chief—Wesley Shield.

District Court Judge — E. P. McNeil.
Clerk of Supreme and District Court—T. Dickson.

Justices of the Peace—G. H. Stedman, W. A. Day.
Provincial Police Magistrate—Major Burrell.

Provincial Police—Corp. Watt.
Crown Prosecutor—J. W. McDonald.
Coroner—A. F. Grady.

Member of Provincial Parliament—Geo. Skelding.
Medical Health Officer—Dr. S. J. Kirk.
Registrar of Vital Statistics—A. F. Grady.

Local Agent Government Telephones—W. E. Kope.

Macleod Hospital Board
A. T. Leather, chairman; E. F. Brown, K. W. Reikie, R. D. McNay, A. D. Ferguson, Rev. J. Kennedy, Rev. W. A. Lewis, Rev. J. Osborn, R. T. McNichol, F. Morris, J. D. Matheson, C. W. Stevens, A. F. Grady, Alex Macleod, J. W. Moreash; matron, Miss Sarney.

Macleod Agricultural Society
President—Mr. H. McIntosh.
1st vice-president—Mr. A. T. Leather.
2nd vice-president — Mr. M. Bailey.
Secretary-treasurer—Mr. R. J. E. Gardiner.

Board of Trade
As the annual meeting will be held soon, the names of the Officers will be published in a later issue.

Public School Board
Chairman—R. T. McNichol.
Trustees—J. L. Fawcett, W. A. Day, R. W. Stewart, H. Little.
Secretary-Treasurer—E. Foster Brown.

Separate School Board
Chairman—T. H. Stedman.
Trustees — M. Gallagher, M. Jordan, J. J. Burke.
Sec.-Treas.—J. Ryans.
Inspector for the Macleod Inspectorate—Mr. L. A. Lazerte, Macleod.

Royal Canadian Mounted Police
Macleod Detachment staff officers:

Commanding Officer—Superintendent R. Y. Douglass, Inspector J. A. McDonald; Inspector W. J. Lindsay, Inspector Howard Townsend, Sergt.-Major W. Armer, Srgts. J. A. Webb and J. A. Allen.

**Will Sell
German Throne
by Auction**

New York, May 12.—The Imperial throne is to be sold here at auction. Household effects of former Kaiser Wilhelm, the former kaiserine and other members of the German imperial family, seized from the imperial palaces of Berlin and Munich for unpaid bills after the emperor abdicated and went to Holland, also will be sold under the hammer here May 22, one of the city's largest collectors announced today.

Sixty-five pieces are in the Imperial collection, which was brought here two weeks ago by the purchaser and importer, Val De Mar Pevelson. He declared he had considerable difficulty in getting an export permit from the German government, which was obtained he said, only after he had promised to buy

food with the net profits for re-sale in Germany.

Authenticity of the art objects is vouched for by one of Berlin's most reputable art firms.

The kaiser, according to Mr. Pevelson, was not always prompt about paying his bills. Immediately upon his flight, tradespeople whose patience was exhausted seized household belongings in payment of their accounts.

Durum Wheat

By Chas. E. Saunders, Dominion
Cerealist.

The word Durum is not applied merely to a variety of wheat, but to a group of varieties which differ from each other almost as much as the various sorts of ordinary wheat. The Durum varieties have, however, several characteristics in common. They are usually bearded and have short compact heads; the straw is rather weak; the kernels are extremely large and, as a rule, exceptionally hard. Most or all of the Durum varieties are more resistant to drought than ordinary wheat. This does not mean, however, that they will produce a good crop under very adverse conditions. Some of them show a good deal of resistance to rust, though they vary considerably in this respect. In the bread making qualities of the flour made from Durum varieties, there are very large variations. Some of the varieties, such as Kubanka, are excellent for bread making, while others, the majority perhaps, are decidedly inferior. The flour is usually of a yellowish color, as in the case of Kubanka, and in other instances dull and unattractive. It is obvious, therefore, that if one decides to grow Durum wheat, the choice of the particular variety to be sown is not a matter of indifference.

Objections Noted

The objections to the best varieties of Durum wheat arise not only from the yellow color of the flour (a shade which is not fashionable at present), but to the extreme hardness of the kernels. Durum wheat in pure condition cannot be ground into flour by exactly the same system as ordinary wheat, and if the miller has to deal with a mixture of Durum wheat and common wheat, the problem presented is very troublesome.

**GREEN
FEED
\$30**

A TON
ABSOLUTELY DRY

H.C. WINTER CO.

Naturally, the millers are averse to changing their methods and will not do so unless forced by a shortage of ordinary wheat and the presence on the market of considerable quantities of Durum.

The yellow color of the flour is an objection the seriousness of which can easily be exaggerated. Provided, as in the case of Kubanka, the color is bright, it is hard to imagine that the public would long refuse to purchase the flour. The usual demand, however, is for white flour, even if it has to be bleached, and for yellow butter even if it has to be artificially colored. Of course, the public is not very logical in setting these standards, but those who grow wheat for sale must bear in mind the wishes of the consumers.

A Summing Up

In the Northwestern United States there was a hard struggle before Durum wheat finally became established as a recognized and profitable article of commerce. Probably a similar struggle will occur in Canada, and those who are pioneers in the growing of Durum wheat may very likely find it unprofitable, though it seems almost certain that ultimately Durum varieties will be more remunerative to farmers in the southern portions of Alberta and Saskatchewan than the varieties which are now usually grown there.

It is difficult to advise farmers what should be done at present. So long as there is a good demand for Durum wheat for seed purposes all will go well, but it will be a different matter when attempts are made to sell the wheat in the ordinary way for milling. A commission firm in

Winnipeg, has been quoted as having given the following advice: "Don't grow any more Durum until more is grown." This sums up the matter very well. A farmer, before sowing much of this kind of wheat, should assure himself that there will be a profitable market for it. Such a market will not likely be established in Canada until quite large quantities of Durum wheat are available.

An Experimental Forest

Canadians have now been familiar for a long time with the words "experimental farm," and while the heading of this paragraph may seem a little new, a moment's reflection will show that the good work which our experimental farms have done for forestry and lumbering. The people of this country now realize that a large portion of Canada is admirably suited to the growing of timber, but is not suited to the growing of ordinary field crops. Rough, hilly land, sandy plains and ridges, and ridges strewn with boulders are types of soil better suited to growing trees than to growing anything else. At the same time the increasing price of lumber all over the world proves to Canadians that the forests growing on these non-arable lands will continue to form one of Canada's greatest resources. In the Upper Ottawa country and in many other parts of Canada there are districts from which a crop of timber has been taken by the lumbermen, but which have not been occupied since that time by settlers. These districts are now being covered again with a new growth of timber, but in many cases it is not as good timber as that taken off thirty or forty years ago. It is here that the knowledge and skill of the forest engineer comes in. He can by weeding out the inferior trees give the better species like pine and spruce a chance to develop and to cover the country. Details of such work have been reduced to a system in Europe, as many Canadians learned when they served in the trenches in France, but experience in regard to European forests cannot be taken as a guide in a country like Canada, where many conditions are different. To study this problem of how to reproduce good forests as quickly as possible on cut-over or burned-over lands, the Dominion Government, at the request of the Honorary Advisory Council for Scientific and Industrial Research, instructed the Forestry Branch of the Department of the Interior to establish an experimental forest on part of the military reservation at Petawawa. The tract is an ideal one, as it presents conditions as they appear over a large part of Ontario and Quebec. Three working seasons have now been spent on the experimental forest at Petawawa and already much information has been gained as to the rapidity of tree growth. With these studies continued and extended, Canadians will in years to come know as much about their forests and how to handle them as the French know about theirs.

Curious.

"What time does the tide come in here, Mr. Fisherman?"

"Why you young rascal, I've told you three or four times already. At five thirty-five."

Little Max: "Yes, I know, but I do so like to see your whiskers waggle, Mr. Fisherman, when you say 'five thirty-five'."

Imperial Polarine Pays Because It Saves

ANY motorist, who keeps a record of his car expenses, can quickly satisfy himself that Imperial Polarine pays because it saves—because it saves not only gasoline, new piston-rings, spark plugs and other repairs, but also depreciation.

Imperial Polarine makes a good car better, keeps the motor in perfect tune, thoroughly lubricated against excessive wear and break-downs. It provides an unbreakable oil film which lubricates every friction surface—makes a perfect piston-ring seal and saves wear on moving parts.

What grade is best suited for your car? Do you know? Look for the Imperial Polarine Chart of Recommendations, on display wherever Imperial Polarine is sold, and learn the grade specified—use this grade exclusively and get the utmost service.

Four-gallon and gallon steel cans, steel half-barrels and barrels, also steel 12½-gallon kegs—for sale by dealers everywhere. Buy in large containers to save money.

A Call

There is every evidence that the town of Macleod has passed the crisis and that there is before it a new day of prosperity limited only by the attitude and spirit of its citizens.

As a town the war period was survived. The two years of crop failure leaves the town still on the map and fairly healthy.

The town of Macleod has a most favorable situation, nature has blessed her in a way that is far from appreciated by her citizens.

Of course the rocks are not a thing of beauty, stumbling over the rocks is hard on the boots. Yet we always have good hard roads, and it is not necessary to get a four horse team to pull us out of the mud. Our

streets are always hard, dry and clean.

The location on the bank of a river of pure fresh water, easy of access and flowing through a flat that nature has endowed with almost the beauty of a park. This surely is a great blessing. In fact nature has given us much that any other town would be proud of. But nature cannot do it all, if Macleod is to remain on the map, the citizens must assume the responsibility of real loyal citizenship. There must be a spirit of co-operation and good will. A spirit that will give every citizen faith in his town, and boost for its welfare.

The old spirit of selfish individualism must be left behind. There is no reason why it should not be the best town in southern Alberta. There are, of course, difficulties to be faced.

The piker says "I'm going to move away," but that is not the spirit of manly citizenship.

The aim of every man and woman should be to make this a desirable town to live in, and to assist in helping the place to realize its splendid possibilities.

There are real signs of better days. The sawmill is an assured fact. It is settled that Macleod shall be on a great motor highway. The long looked for irrigation project makes a start this summer.

Mayor Fawcett and his indomitable circle of councillors, are doing their best to keep the wheels of progress turning, at any rate to keep them moving forward and not backward. These are days for rallying, and not dissension.

The spirit of the Englishman was demonstrated in the late war, in that when the clouds were darkest, and defeat seemed imminent; those were the days of England's greatest determination and energy.

The farmers have during the past year set the town's people a splendid example. They never lost their faith, their hope, their courage, and certainly no community ever passed through more discouraging times.

Citizens of Macleod this is no time to yield a single position that has been taken for the welfare of the community.

CHRISTY BROS. DOG AND PONY SHOW

To every reader this announcement brings a message of supreme interest, a message fraught with tidings both great and joyous, for on Thursday, May 27, Christy Bros. greater united wild animal exhibition will give two performances, at 2 and 8 p. m., in Macleod.

Over a score of years Christy Bros. shows have stood for all that has been biggest, best and supremely novel in the world of amusements. Beginning in a modest way, they have slowly but surely built up an institution of vast proportions so familiar in the American public, in addition to introducing many innovations in the amusement world in the form of splendid new methods of presenting arena performances and magnificent pageantry. The Christy Bros. were the pioneers in a policy which insisted upon the public being treated with the utmost consideration. This years program offers many new features and displays, presenting scores of America's most famous artists, a colossal exposition of wild animal wonders from every clime; Clowns, a gay giddy and glad-some throng of earth's most ludicrous comedians, creating an endless chain of spontaneous side-splitting laughter with their newest stunts and sketches.

Most unique congress of wild and domestic beasts, superbly schooled in an endless variety of tricks and new attainments that will captivate the hearts of every man, woman and child. Made a part of and included in the program of wonders are the funny four-legged jesters of Pony Land, Bear Land, Pig Land, Donkey Land and Monkey Land. These clowns of animal land present a program that tickles young and old with their unmistakable comedy. These are but a few of the features named at random which follow the marvelous introductory feature. Prince of the Jungle, a pageant of colorful magnificence, a wealth of color, pomp and glorious music, with scores of characters, lavishly costumed, makes this a truly wonderful display. Twice daily, immediately preceding the opening of the doors, a monster FREE act will be given when Upside Down Zenaldo will make his thrilling slide on a slender thread of steel from a height of fifty feet, balancing on his head, atop a roller skate, Zenaldo presents the most thrilling attraction ever offered to the public as a free attraction.

A Hopeful Experiment

The plan for labor representation on the directorate of the British Empire Steel Co., the great steel and ship merger now familiar to the Canadian public, will be one of the most interesting experiments ever undertaken in this country, if inaugurated in a manner that assures fair trial under right conditions. It has been authoritatively stated that the plan developed contemplates not only that employees will be given opportunity to participate in the success of the company, but to have representation on the board.

This will be distinctly a departure from precedent in this continent. The United States Steel Corporation, which has many shareholders among its workers, has none of them on its board. One must look to Britain for anything approaching this proposal.

Joint councils and boards of management on which the workers have strong representation even without the necessity of buying shares, are becoming fairly common in the old country, where solution of the problem of capital and labor in industrial development is at least twenty years ahead of the United States.

This huge British steel enterprise by adopting the enlightened attitude of many British capitalists toward labor problems, may have a very powerful influence in offsetting the revolutionary trend now becoming apparent in North America. The employee will find out that his labor and anxiety and worry are only a small part of the burden of a successful industry. The capitalists will hear of many important matters concerning the welfare of the workers toward which he is now impatient of paternal; and he will hear straight from the workshop without diplomatic modifications by superintendents, managers and other middlemen. Under fair conditions, such a scheme will provide the machinery for formulating a complete, all-round, human industrial policy, taking all factors into consideration. A little soul can be born in the corporation. Business will have an opportunity to become converted in time, to Christianity.

Everyone who understands and dreads the trend of things on this continent will scrutinize the new merger's program very carefully and hopefully, and will applaud the first sign of a successful supplanting of the obsolete ideals of those now in control of the great steel combines of this continent.—Albertan

Al. G. Barnes Circus Coming

On Friday, June 11th, the celebrated Al. G. Barnes Circus is billed to appear in Macleod. This circus carries one of the largest aggregations of wild and tame performing animals in the North American continent, among which are lions, tigers, leopards, jaguars, pumas, bears, monkeys, elephants, camels, hippopotami rhinoceri, giraffes, ostriches, etc., etc. Every animal an actor—

BY AEROPLANE TO PARIS.

A distinctly novel attraction has now been provided in the C.P.R. office windows at Charing Cross, an attraction which has been much admired by the crowds who have gathered to make inspection. The fine windows usually devoted to the exhibition of things Canadian is being occupied by an excellent model aeroplane of the Aircraft Transport and Travel, Limited, at London, together with scientifically accurate models of various types of aeroplanes and airships.

Such a display in a railway and shipping office may seem rather unusual at first sight, but is really a sign of the times, also marking much enterprise on the part of the Dominion Express Company of Canada. Realizing the importance of maintaining a really "Express" service, if its name is still to be justified, the Dominion Express Company, the Premier Express Company in Canada, made arrangements to act as Passenger and Parcel Agents for the Aircraft Transport and Travel Limited on their London-Paris daily air service.

It is thus possible for either passengers or parcels to be booked for conveyance by aeroplane to or from London and Paris through any of the Dominion Express Company's offices in Europe, and these, in addition to London are to be found in important cities such as Liverpool, Glasgow, Manchester, Birmingham, Bristol and Paris.

The advantages of this arrangement are many, for the Dominion Express, holding as it does the exclusive right of shipping Express parcels over the entire C.P.R. system, as agents for the Aeroplane Service can assure that an Express package scheduled to catch a certain ship actually reached its destination in Canada in the shortest possible space of time. As time is money nowadays, more than ever it was, it is easy to realise what an important adjunct an Air Service is to an Express Company.

The time-table shows that only 2 1/2 hours is occupied on the journey to or from London and Paris—urgent letters are carried at 2 shillings and 6 pence per ounce over the ordinary letter rate.

Parcels for delivery in Paris on the same day have to be handed in at the London office of the Dominion Express Company, 62-65, Charing Cross, London, S.W., before 10.30 a.m. The parcels rates range from 1s. 6d. to 2s. 6d. per lb. according to quantity, while special rates are quoted for large and regular consignments. The single fare for passengers is 15 guineas which includes a car to convey the passenger to Hounslow, the starting point. The Dominion Express Company's officials at Charing Cross have every reason to believe that a large proportion of Canadian visitors to Europe this year will take advantage of the ease with which it is now possible to book seats for a real flying visit to the Continent through their office. In fact, if they so wish, a motor car can pick them up in Trafalgar Square, and in under three hours they can be walking along the Champs Elysees.

every act an animal act and wonderful animal feats will be witnessed at each performance. There are in all 1,200 performing animals, and 103 animal acts. In addition to this there are 550 dancing and performing horses and ponies, and the great concern as it travels through the country consists of two big special trains of 20 cars each. There are 600 people with the show, including 110 animal trainers, 40 animal clowns and 6 big concert bands.

There will be a monster street parade at 10.30 in the forenoon, and the big show starts at 1 for the afternoon performance and at 7 for the evening performance.

Teacher—"Johnny, what is a cube?"
Johnny—"A cube is a solid surrounded by six equal squares."
Teacher—"Right! Willie what is a cone?"
Willie—"A cone? Why—a cone is—er—a funnel—stuffed with ice cream."

Now is the appointed time. Clean up, paint up, plow up, plant up, keep it up. This is about the proper rotation of events.

MACLEOD FLOURING MILLS LTD.

LOCAL AND PERSONAL

Cyrus Lite, of Granum was in
town on Saturday.

Mrs. R. T. Barker will not receive
again this season.

R. G. Batchart, was a visitor to
Calgary for the holidays.

A. McDonald and family made a
visit to Summerview on Sunday last.

Mrs. S. Fraser, wife of S. Fraser,
locomotive foreman at the local
C.P.R. shops, is in Vancouver visiting
friends.

Miss G. Rhodes, formerly of the
Bank of Commerce, was in Macleod,
on Saturday.

Born to Mr. and Mrs. W. Stoddart,
on Friday last at Macleod General
Hospital—a son.

Mrs. A. F. Grady went to Calgary
on Monday as a delegate to the I.
O.D.E. convention.

Mrs. I. Peterson, of Calgary, is the
guest of Mr. and Mrs. T. Peterson
for a few days this week.

Mrs. (Rev.) W. A. Lewis left on
Monday on a visit to her daughter
Mrs. Brownlee, at Cadogan.

Mrs. Crow has returned to Macleod
after spending the past four months
visiting her son at Delbourne.

J. M. Henry, two miles east of
Macleod, reports wheat seeding
finished and he is now breaking.

Miss Truswell and Miss Forrester,
of Taber, were the guests of Mrs.
D. L. Marison over last week-end.

Mr. McAdam, of Edmonton, formerly
with the P. Burn's Co., Macleod,
was a visitor in town during the holi-
days.

J. J. Foster, of Mud Lake, has
completed wheat seeding operations
and is now engaged in breaking land
for flax.

W. G. Andrews is absent at
Saskatchewan points visiting friends
among whom is J. J. Haney, formerly
of Macleod.

Mrs. T. Peterson will receive on
Friday, May 28, from four to six in
honor of her guest, Mrs. I. Peterson,
of Calgary.

There was a good crowd of base
ball fans out last Wednesday to see
the game between the "Mounties"
and the town team. Perhaps it was
not highest class ball, but it afforded

plenty of amusement and the usual
thrills, and resulted in a score of
11-7 in favor of the redcoats.

Supt. Bryan, of the A. P. P., now
of Edmonton and formerly of Macleod,
with Mrs. Bryan, visited
friends in Macleod during the first
of this week.

Messrs O. S. Clarke and T. Whip-
ple have finished seeding on the R.
T. McNichol farm and are now
breaking in the river flats near Macleod
for flax.

Miss Jennie Martin, now of Cal-
gary, daughter of Mr. and Mrs. J.
Martin of Macleod, visited the home
folks for a few days during the past
week, returning to Calgary on Tues-
day.

Born on Sunday, May 23rd in the
Macleod General Hospital, to Mr.
and Mrs. Allen Macdonald of Claresholm,
a daughter, Mr. Macdonald is
a son of Sheriff A. B. Macdonald, of
Macleod.

The Hudson's Bay staff and the
staffs of the local banks will clash
for honors in a base ball game on
Friday next at 7 o'clock in the even-
ing—Collection will be taken in aid
of the Hospital.

G. B. Altham spent a few days this
week at his home in Macleod. Mr.
Altham is engaged on an electrical
installation contract in British Colum-
bia which will engage his atten-
tion for some little time yet.

Ralph Lantinga has finished sow-
ing wheat, his hired man Allen Par-
ker put in 685 acres, with one drill
and eight horses, in less than four-
teen days, and the horses looked in
better shape when they finished than
they did when they started.

Miss Edith Ferguson stated this
week to The Times that her sister,
Miss Helen Ferguson, who was so
seriously injured in the gas explo-
sion at their home some time since,
is progressing very favorably and is
expected in due course to regain her
normal health.

ad on cutting high cost of living
—recipe for economy in meat
buying.

Golf Notes

A very successful golf competition
was played the first of this week.
The play took the form of men's two-
ball foursomes, and although the
weather was rather windy, some
very good golf was played. The win-
ners were C. P. McGladdery and W.
Forsyth, with a net score of 86.

The mixed foursome competition
unfortunately could not be played on
Monday on account of the high wind,
and is postponed until next Sunday
at 2.30 p.m., when the same draw
will hold good.

Macleod Golfers Successful at
Calgary.

The Macleod team playing for the
Calgary Herald's Cup in the two-ball
men's foursome championship of the
province, almost succeeded in bring-
ing this handsome trophy to Macleod.
They beat St. Andrews Club, Calgary
and the Edmonton Country Club in a
thorough manner, but had to bow to
defeat at the hands of the Calgary
Golf and Country Club in the final.
It is said that Calgary had to play
super golf to beat Macleod, and we
can quite easily believe that, as Macleod,
represented by D. G. Mackenzie,
J. Gillespie, J. B. Watson and J.
Cameron are as strong a combination
as there is in the province.

CARD OF THANKS

The committee heartily thanks all
the merchants, clerks, and C.P.R.
men and others, who promised fi-
nancial aid to keep the Macleod
Hospital open.

(Sgd) The Committee.

French officials have discovered
evidence that makes clear the pur-
pose of men at the head of the great
strike there to put in force. Soviet
rule if their strike efforts succeeded.
And what has been discovered in
France is no doubt true of strike
disturbances in America as well.
The Soviet idea has caught on with
many easily influenced people, and
cash from Russia is financing labor
troubles all over the world.

The Old Story.

"I don't like your heart action,"
the doctor said, applying the stetho-
scope again. "You have had some

NOTICE

On the request of Mr. Schimick,
Inspector of the Railway Commis-
sion, to call a meeting, which will be
held in the Town Hall, Granum, Alta.,
on Monday, 31st day of May, at
the hour of 2 p.m., for the purpose
of discussing the advisability of hav-
ing a Railway Siding placed Four
(4) miles south of Granum, or to
move the present station of "Nolan"
to the said point. We will be glad
to have every man interested attend
and take part in the discussion so
that the matter may be settled in the
best interest of all concerned.

REMEMBER THE DATE.
